

Meet the new generation Supermoto tyres

Slick

Rain

Intermediate

Under the brand name GOLDSPEED, a competitive range of Supermoto tyres has been developed in close co-operation with drivers and our R&D department. These high performance supermoto tyres easily meet the highest demand of the market. Maxxis Goldspeed supermoto tyres are well accepted by experienced and less experienced drivers, but most of all wanted by winners.

The Maxxis Goldspeed supermoto tyres are available in a wide selection of compounds and patterns providing maximum performance even under changeable racing conditions.

Street Legal advantage!

The intermediate Goldspeed tyre is besides an excellent racing tyre, also EU-homologated for use on public roads.

Choose to be the best.
